Companies running under the aegis of NSEPF:

Capacity Building & Skill Development Program

We are developing and strengthening the skills, instincts, abilities, processes and resources that organizations and communities need to survive, adapt, and thrive in a fast-changing world. Our Capacity Building program is designed to develop effective and well-managed organizations that make best use of their human and financial resources to maintain business sustainability.

Trainings for the Candidates under IT & Electronics Sector

NSEPF is working towards skill training of individuals, corporates, developmental institutions, cooperative leaders. NSEPF is trying to Improve the global competitiveness of India in various sector by investing in capacity building initiatives and skill development through introduction, showcase and dissemination of global and Indian best practices on skilling of youth on current and emerging trends in every sector.

Capacity Building Training Programs for FPO's Farmers

Capacity Building Training Programs under Food Processing

NSEPF aims to empower local communities, enhance skills, and improve livelihood opportunities. These programs can cover various areas, such as:

- ✦ **Agriculture and Livelihood Development:** Training farmers in modern agricultural techniques, organic farming practices, water conservation, livestock management, and promoting sustainable livelihood options.
- ✦ **Women's Empowerment:** Providing training and support to women in entrepreneurship, skill development, and income-generating activities.
- ✦ **Health and Hygiene:** Conducting health awareness workshops, training health workers, and promoting better hygiene practices to improve overall health in rural areas.
- ✦ **Education and Literacy:** Running education initiatives, establishing community schools, and organizing adult literacy programs.
- ✦ **Financial Inclusion:** Promoting financial literacy, facilitating access to microfinance, and encouraging savings and financial planning.
- ✦ **Environmental Conservation:** Creating awareness about environmental issues, promoting eco-friendly practices, and undertaking afforestation programs.
- ✦ **Water and Sanitation:** Building and maintaining water supply systems, constructing toilets, and promoting safe sanitation practices.
- ✦ **Skill Development and Vocational Training:** Offering vocational training programs to enhance employability and entrepreneurship skills among rural youth.
- ✦ **Community Development:** Engaging in community mobilization, promoting social cohesion, and fostering local governance.
- ✦ **Disaster Preparedness and Relief:** Conducting workshops to educate communities about disaster preparedness and providing relief and rehabilitation during emergencies.

Our CSR Initiatives

NSEPF is dedicated to making a positive impact through a range of Corporate Social Responsibility (CSR) initiatives. Our commitment extends to various spheres, with a primary focus on uplifting communities and preserving the environment. Through our community development programs, we strive to empower underserved populations through education, healthcare, and skill development. In the realm of environmental sustainability, we actively engage in Tree-planting initiatives and afforestation projects. Our health-focused initiatives include organizing Medical Camps, Health Screenings, and Primary Healthcare Centres to ensure access to quality healthcare for all. By fostering partnerships with local communities, businesses, and government agencies, we aim to create sustainable solutions that address the unique needs of the regions we serve. Our CSR activities reflect our commitment to social responsibility, transparency, and the belief that collective efforts can bring about positive change in the world.

1. Education:

- ✦ Providing educational support to underprivileged students.
- ✦ Maintaining schools or classrooms in underserved areas.
- ✦ Offering vocational training programs to enhance employability.

2. Healthcare Programs:

Content Development

Content Creation:

We are well aware about mostly all the activities and requirements of sectors. Based on our understanding of the objectives of our clients, we, develop a tailored content strategy that aligns with brand voice and resonates with the target audience. Our strategy has include an editorial calendar, content themes/topics, and recommended content formats. Our team of experienced content creators has craft high-quality and compelling content to meet the actual needs of our clients.

Content Translation:

The translation is more than just a conversion of one language to another. With literary work, however, translation can generate a deeper understanding of the complexities of language. It improves written and spoken communication skills, leading to valuable teaching experience. A team of experts has involved in translation of various content like QP-NoS/Model Curriculum, Participant's Handbook and Facilitator's Guide from English to various other language.

e-Learning Content Development Creation:

Creating e-Learning content involves developing educational materials that can be accessed and delivered electronically, typically through online platforms. The process of e-Learning content development can be broken down into several key steps:

- ▲ Needs Analysis
- ▲ Content Outline
- ▲ Storyboarding
- ▲ Multimedia Integration
- ▲ Assessment and Quizzes
- ▲ Interactivity
- ▲ Accessibility and Usability
- ▲ Responsive Design
- ▲ User Testing and Review
- ▲ LMS Integration
- ▲ Deployment and Maintenance

Throughout the e-Learning content development process, keep the learner's needs and preferences in mind, and aim to create a user-friendly, engaging, and effective learning experience.

Research & Development

NSEPF Research & Assessment (R&A) provides research and analysis that offers clients actionable solutions to their problems. We are a full-service research agency answering questions about markets, consumers and lifestyles across India via quantitative and qualitative studies. We specialize in the inventory, collection, and analysis of primary research data for businesses, NGOs, governments and other institutions. NSEPF (R&A) has a team of subject matter experts which are qualified researchers with many years of experience in primary research and has a strong commitment to obtaining the information required to fuel sustainable and inclusive growth across India.

The NSEPF (R&A) focuses on critical topics in strategic philanthropy and civil society. We disseminate knowledge to guide effective decision-making and policy debate across India's social sector. In addition to providing credible and reliable evidence-based, data-driven insights through applied research, we also strive to build a culture of evidence-led discourse and decision-making through our projects.

Our initiatives and outputs include case studies, surveys, policy briefs, and knowledge partnerships with organisations and thought leaders. Together, we are working to bridge the knowledge gap and strengthen the sector's capacity by building credibility, connections, and capabilities through the research we generate and disseminate.

Our Connections & Associations

Testimonials

This is an important time for all the stakeholders to come forward with fresh ideas, their implementations and a positive approach to increase awareness about the government's development initiatives. In this area the Indian Chamber of Commerce appreciates NSEPF.

- **Mr. Avjit Ghosh**, Chairman – Indian Chamber of Commerce (Jharkhand Council)

NSEPF is playing an important role in India's Skill Ecosystem by providing niche services while advocating the needs of skill development in India. The initiatives of NSEPF are highlighting the true reflections of the outcomes of the Skill Development Initiatives.

-**Col. Anil Kumar Pokhriyal**
CEO – MEPSC (under MSDE, Govt. of India)

We are pleased to be the partner with esteemed NGO NSEPF. The tree plantation drive is part of our contribution to the 'Go Green' initiative of the Government of India, to combat the effects of global warming and reduce the impact on climate change. NSEPF is contributing an important part in it, plants and nurtures trees across India.

- **Dr. Rimple Manchanda**, Associate Professor - GD Goenka University

NSEPFAPL team is a great help for our organization. They are an expert in designing and implementing advanced assessment techniques. We are using their exam platform which is customized according to our requirements and getting good support always whenever we ask them. We recommend their services to all.

-**Mr. Anurag Kumar**, Project Incharge – Centre of Excellence for Dairy Skills in India (CEDSI)
